

Thanks for choosing Direct Hits. Direct Hits turn regular spark plugs into super spark plugs with a spark many times greater than a standard plug.

Direct Hits come with a lifetime warranty from the factory. No need to replace them.

Below are the standard installation instructions. It's quite easy and you will be up and running in minutes. If you encounter any problems please feel free to call. 505-977-6376

Illustration 1: These are the basic parts for an installation. A Non-resistor plug, the Direct Hits and the new spark plug cap

Illustration 2: Remove your existing spark plug cap from the wire

*Illustration 3: Slide the weatherproof boot onto the spark plug wire. ****Note**** Solid rubber caps need no boots*

Illustration 4: Screw the cap into the wire. There is a threaded stud inside the cap. Slide the boot on.

Illustration 5: Remove the nut from the top of the plug if it came with one. Gap to engine mfg specs.

Illustration 6: Install the plug(s) and torque to the mfg. specs. Put a dot of blue Loctite on the top couple of threads.

*Illustration 7: Screw the Direct Hits onto the spark plug. **** Hand tighten only!! Do not use a tool to tighten the Direct Hits.***

Illustration 8: Snap the new cap on the Direct Hits. Done!!
